## Press Statement 15<sup>th</sup> November 2016

### 27<sup>th</sup> Winner of John Dunne Medal for outstanding trainee contribution to psychiatric research announced

CPsychI congratulates Dr Cornelia Carey, winner of the John Dunne Medal 2015. Dr Carey, who is currently employed in St. James Hospital also sits on the **CPsychI Trainee Committee**. Dr Carey will also sit on this year's judging panel for the **Spike Milligan Public Speaking Competition**.

Dr Carey was selected as this year's winner for her paper entitled '*Are psychiatric team meetings patient centred? A cross-sectional survey on patient views regarding multi-disciplinary team meetings*'. The survey's aim is to examine inpatient experience of multi-disciplinary team meetings (MDTMs) and identify factors that significantly alter this experience.

Associate Editor of the Irish Journal of Psychological Medicine Dr Brian Hallahan presented Dr Carey with the medal at the annual CPsychI and RCPsych NI Joint Winter Conference on Friday 11<sup>th</sup> November, in the Slieve Russell Hotel in Cavan.

"Congratulations to Dr Cornelia Carey who was the 2015 winner of the John Dunne medal for best research published by a psychiatry trainee in the Irish Journal of Psychological Medicine. This medal represents quality in research and it is hoped that this will encourage further research from trainee psychiatrists in Ireland and the UK." said Dr John Lyne, Editor-In-Chief of the Irish Journal of Psychological Medicine. It was co-authored by Dr John Lally\* and Dr Adam Abba-Aji\*\*, and appeared in the Irish Journal of Psychological Medicine in June of 2015.

Established in 1989 to honour Prof John Dunne, first Professor of Psychiatry in Ireland and President of the Royal Medico-Psychological Association in 1955, the prize acknowledges **original and outstanding contributions to the field of psychiatric research**.

The prize is open to all trainees from Ireland, Northern Ireland and Britain. To be eligible, a trainee must have made a significant contribution (though not necessarily as first author) to an original paper published by the Journal over the year.

Notes for the Editor:

The College of Psychiatrists of Ireland was formed in 2009. It is the professional body for psychiatrists in the Republic of Ireland. The Mission of the College of Psychiatrists of Ireland is to promote excellence in the practice of psychiatry. The College of Psychiatrists of Ireland is the sole body recognised by the Medical Council and the HSE for the training of doctors to become specialists in psychiatry and for the continuing assurance of the career long competence of specialists in psychiatry. The College supports the delivery of mental health services in line with the recovery model and supports the delivery of the national policy on mental health services A Vision for Change.

\*Doctor at NUI Galway and University Hospital Galway but at the time of publication was at the Institute of Psychiatry, King's College London.

\*\* Doctor in Sligo Mental Health Services
