

Fellowship in Individual Psychotherapy and Balint Group supervision.

Interested applicants are encouraged to apply for this Fellowship in individual psychotherapy and Balint group Leadership.

This post will provide post CSCST training for interested individuals. Individual psychotherapeutic case work with clinical supervision grounded in theoretical principles will be a core element of this post. The candidate will be encouraged and facilitated to engage in further study in group and individual psychotherapy during the duration of the fellowship. Additionally, the candidate will co-lead Balint groups in St. Vincent's hospital with a view to achieving Balint leadership experience and accreditation.

It is desirable the successful candidate have a prior interest psychotherapy. This fellow will be encouraged to develop leadership skills with a view to delivering excellence in psychotherapeutic care to patients and raising the profile, availability and standard of reflective groups (Balint) for healthcare staff. The department will afford the fellow research opportunities in the areas of psychotherapy, medical education and project management.

The post is located in St Vincent's University Hospital and Holles Street Hospital, Dublin. The department has strong links with the School of Psychotherapy in UCD.

Informal enquires to
Dr Leonard Douglas, Consultant Psychiatrist, SVUH.
